Regular dental visits may do more than brighten your smile. Receiving regular dental care often catches minor problems before they become major and more expensive to treat.

Conditions, such as pre-term birth, heart disease, stroke, diabetes and other health issues. So taking good care of your teeth and gums may help you live a healthier life.

Get the most value from your plan

Most dental services are covered at low cost or no cost to you. Your plan also covers many other dental services that can help you achieve and maintain a healthy mouth.
